Midvale Family Shelter

November 2015

In November 2015, The Road Home completed construction on their new Midvale Facility at 529 West 7300 South that offers temporary shelter for families 24 hours a day. The secure facility features adequate restrooms, kitchens, laundry room, and community space. In addition, there are private meeting spaces for families and as well as dedicated areas for caseworkers.

Chapman-Richards Cares completely furnished 6 kitchens, supplying each with new small appliances, cookware, dishes, utensils, and glassware. They also stocked the pantries with non-perishable food. Our agents delivered the items and set up the kitchens before the families arrived.

Jennifer Carter and her daughters, 7 year old Ryle and 5 year old Starlet, react to getting a tour of one of the kitchens that residents at The Road Home's Community Winter Shelter will be able to use to cook for their families. ~ Salt Lake Tribune
